

## What's been surprising about your Dundee during these times?

In May 2020, We Dundee returned to ask the people of Dundee, to reshape our city's future for now and for future generations.

We believe that recovery plans need to reflect our experiences during lockdown, what we value the most and include the many diverse voices that make up our city. More than just a survey, We Dundee is a playful design tool, supporting people to communicate their message visually.

The ideas received to the above question over the six week period were incredibly varied - poignant, funny, innovative and full of gratitude. They covered many topics including; the outdoors, Dundee's sense of community, and looking after health and wellbeing.

A key part of We Dundee is the ability for everyone to view the submissions. All 215 ideas received are available to view [online here](#) and in a [spreadsheet here](#). This brief document shares key data from the Stage 1 question.

We Dundee now asks you to 'Reimagine Dundee. What needs to happen next?' Please visit and share: [www.wedundee.com](http://www.wedundee.com) as reimagining our future involves us all. [#wedundee](#)
